#### § 752.5 Steps you must follow to apply for an SCL.

(a) *Step One: Establish applicant reliability—(1) Pre-application consultation.* To apply for an SCL, BIS must determine your reliability as a potential SCL holder. BIS usually does this through consultation with company officials and a review of the criteria identified in paragraph (a)(2) of this section. To determine whether your company requires a consultation before you apply for an SCL, contact BIS at the address, phone, or telefacsimile numbers included in § 752.17 of this part.

(2) *Criteria for determining eligibility.* BIS will review the following criteria to help determine SCL holder eligibility:

(i) Evidence of past licensing history and projected, continuous large volume exports;

(ii) Reliability of all parties relative to their compliance with the EAR;

(iii) Commitment of all parties of the necessary resources to implement and maintain an adequate ICP; and

(iv) Evidence of all parties knowledge of all provisions of the EAR.

(b) *Step Two: Establish consignee reliability—(1) Requirements.* You must make an initial determination of the reliability of all consignees that are listed on your application for an SCL, based upon the criteria described in paragraph (b)(2) of this section.

(2) *Determining reliability.* The criteria that you should take into consideration include, but are not limited to, the following:

(i) *Criteria.* (A) The proposed consignee has a satisfactory record established through BIS pre-license checks, or extensive experience as a consignee under any license issued by BIS;

(B) The proposed consignee is a wholly-owned subsidiary or a controlled-in-fact affiliate of the applicant or of a consignee that is already approved on an SCL. See part 772 of the EAR for a definition of controlled-in-fact; or
